The **DEKA PRO MASTER BATTERY** will give you all the power you need to get through two rounds comfortably without needing a recharge — providing it is maintained and charged correctly.

The **DEKA PRO MASTER BATTERY** includes a variety of design features that allow for easy watering and installation, faster maintenance turnaround times and longer cycle life.

The **DEKA PRO MASTER BATTERY** is made with pride by quality craftsmen in state-of-the-art manufacturing facilities, and subjected to the right quality control during every phase.
### FEATURES

- High density oxide paste…
- Integrated “twist-and-release” vent cap “quick fill” system…
- Ergonomic lift handles…
- Heavier grids and plates…
- Thicker plate straps…
- Heavy-duty, bulge-resistant material…
- Case heat sealed to the cover…
- Through-partition connectors…
- Computer-controlled production…
- Glass mat, dual-insulation, “deep pocket” envelope separators…
- Three terminal configurations…

### BENEFITS

- Produces more energy per pound.
- Releases vent caps in single motion design, making maintenance a snap.
- Reduces the risk of slippage. Designed for easier installation.
- Provides longer cycle life, better added value.
- Lowers resistance, delivers better performance, longer life.
- Stabilizes and protects the groups for polypropylene casing longer battery life. Resists bulging.
- Prevents leaks and corrosion.
- Decreases internal resistance, increasing power.
- Assures that grid casting, plate pasting, curing, and formation meet rigid quality specifications.
- Protects plates and locks active material to the grid to retard shedding and prevent shorts. Glass fibers strengthen plate.
- Fits virtually any application.

### FOOTNOTES:

- Unless otherwise noted all batteries are:  
  - Black Cover/Black Case
  - Charcoal Grey Cover and Case
  - Dark blue cover/dark blue case
  - Low maintenance - Low antimony grids
  - Includes handle
  - Flush manifold vented cover
  - Peak performance capacity
  - Offset post w/horizontal hole, stainless steel
  - 5/16” bolt and hex nut
  - Offset post w/vertical stainless steel
  - 5/16” stud and hex nut
  - Molded-in offset SAE post and vertical 5/16” NEG., 5/16” POS. stainless steel studs and hex nuts

**FOOTNOTES:**

- All batteries are shipped with quick release one-quarter turn gang vent caps. To order individual vent caps on batteries, add a “V” suffix i.e., GC15V, etc.
- All batteries are wet.
- All above types have microporous polyethylene envelope separators with glass mat (except 426G).
- 426G battery has microporous, polyethylene envelope separators.
- All batteries manufactured in polypropylene cases.
- Dry = Up to 10% reduced capacity.

**TERMINAL SELECTIONS**

- **G**
  - Stainless Steel Nut and Bolt
  - Offset post w/horizontal hole, stainless steel
  - 5/16” bolt and hex nut
  - Molded-in offset SAE post and vertical 5/16” NEG., 5/16” POS. stainless steel studs and hex nuts

- **O**
  - Stainless Steel Nut
  - Offset post w/vertical stainless steel
  - 5/16” stud and hex nut
