

# AUTOMOTIVE INTIMIDATOR®

## AGM

### FEATURES AND BENEFITS

- Premium maintenance-free starting and cycle service power
- 20x more vibration protection\* safeguards battery performance over time
- Faster recharging powers more electronics longer
- 2x the cycle life\* extends performance and life
- Spillproof design provides added protection for sophisticated electronic equipment

\* Compared to conventional designs

Conventional automotive batteries can be extremely intimidated by the power demands of today's vehicles – falling short of delivering critical dependability and performance. Cars, trucks, SUVs, and other passenger vehicles have more electronics than ever before.

Intimidator automotive batteries are especially designed to handle factory installed electronics to anything that plugs in or turns on, and still deliver dependable starting power. With almost **2x the endurance\*** in severe service and **2x the cycle life\***, these batteries are equipped for the toughest conditions and the most intense electrical power demands.

Intimidator automotive batteries are also ideal for tuner cars or off-road vehicles, offering superior power for high-performance equipment and a high-impact design for rugged, back road adventures.

# Intimidator® AGM Solutions for Intimidating Battery Needs

Intimidator is a pioneer brand in the development of the form, fit, and function of AGM battery technology. It has been tested and proven to best meet the criteria of the automotive industry.

## ADVANCED DURABILITY DESIGNS

- Fortified posts, straps, and welds resist vibration damage
- Maximize current transfer over life of battery

## POWER-PERFORM® FULL-FRAME POSITIVE & NEGATIVE PLATES

- Better withstands severe service demands
- Prevents life-robbing electrical shorts from exposed wire

## ENHANCED ELECTROLYTE SUSPENSION SYSTEM

- Absorbs more electrolyte, protects internal components
- Micro-porous glass separators prevent acid spills and terminal corrosion

All batteries have SAE automotive posts unless noted. All batteries in Black cover/Black case except where noted.

FOOTNOTES: 2. Black cover / Gray case 16. Dual terminal universal design 17. Includes handle 18. Includes top adapter 22. Flush manifold vented cover 46. If battery is used on-highway vehicles equipped with two-way radios (such as taxis, police, and emergency vehicles), marine applications, off-highway use, and other non-automotive usage, free warranty replacement period will be 18 months. Free replacement warranty is 12 months in deep-cycle use and 3 months in full electric vehicle use 79. Added durability for heavier cycle service and commercial use J. JIS Terminal "pencil post".

### Experience the East Penn Advantage

East Penn's A<sup>3</sup>™ Advanced-Cubed precision-focused manufacturing approach ensures the process behind the technology delivers critical quality at each stage of battery production. INTIMIDATOR batteries are supported by A<sup>3</sup> manufacturing to optimize the life, power, and durability of the battery's design and performance.
