

*Wire, Cable, and
Battery Accessories
Product Catalog*

2011

East Penn's Wire and Cable division is housed in a 250,000 square-foot facility equipped with state-of-the-art technology utilizing sound yet advanced manufacturing principles. This facility does not just assemble products, but performs the entire manufacturing process from start-to-finish. In fact, East Penn is a supplier to other battery accessory manufacturers whom simply buy and assemble components. East Penn's Wire and Cable facility is an invaluable asset to the company's logistically convenient battery manufacturing plants.

East Penn has total control of all components in its products, from copper rods to the clamps. This ensures the highest quality and complete customer satisfaction. In addition, changes and adjustments in the manufacturing process can be made easily to enhance product quality and achieve continuous improvement objectives. The company's

WIRE & CABLE DIVISION **We're All Connected**

*A division of the world's Largest and Most Modern
Single-Site Battery Manufacturing Facility*

GRAVITY LEAD CASTING

*This unique process produces
high quality lead terminals.*

BOOSTER CABLE ASSEMBLY
*Heavy-duty, vinyl coated steel
clamps are attached to
100% copper conductor cables.*

DUAL CABLE EXTRUSION PROCESS

*100% copper wire is coated with
durable, color-coded PVC insulation.*

vertically integrated structure enables efficient inventory and lead time control and is not dependent on outside suppliers for crucial material.

Included in a long line of renowned certifications, the Wire and Cable quality system has been certified to ISO 9001:2008 along with certification for ISO 14001:2004 Environment Management Systems. Every accessory meets rigid quality and performance standards such as the Society of Automotive Engineers and Underwriters Laboratories, when applicable.

Recognized globally as one of the leading high quality manufacturers, with the broadest product offering, East Penn makes some of the finest battery accessory, wire, and cable products in the industry.

TABLE OF CONTENTS

Look for the MADE IN USA symbol throughout this catalog.

CALIFORNIA PROPOSITION 65 WARNING: This product and packaging contains chemicals, including lead, known to the state of California to cause [cancer, and] birth defects or other reproductive harm. Wash hands after handling.

Booster cable sets are equipped with heavy-duty plated steel, E-Z Reach™, or high tension parrot style clamps. All clamps are color-coded for polarity identification. These clamps provide easy attachment on hard to reach side, top post, and remote battery access terminals. Colorful packaging assures high store display visibility along with convenient reusable storage.

Professional Service Booster Cables

Cables are made of 1/0 gauge 100% copper conductors. Made with welding cable. High stranding and EPDM jacket allow for greater cold weather flexibility. Excellent abrasion resistance.

Cables are made of 2 gauge 100% copper conductors. Thermoplastic elastomer (TPE) cable insulation protects against oil, grease, and abrasion. Color-coded, tangle-free dual cable construction, specifically designed for maximum flexibility and easy handling.
